ACS Mission

Army Community Service (ACS) was established in July 1965 to provide information, assistance and guidance to members of the Army Community. ACS equips people with the skills and support they need to face the challenges of military life. ACS works closely with the Red Cross, Army Emergency Relief and other US agencies.

The **ACS mission** is to assist commanders in maintaining the readiness of individuals, families and communities within America's Army by developing, coordinating, and delivering services that promote self-reliance, resiliency, and stability during war and peace.
